# WELCOME ICE CHARCOAL

At PT INDO CHARCOAL ENERGY, we don't just produce coconut shell charcoal—we deliver eco-friendly solutions that meet global market needs. With a focus on sustainability, quality, and innovation, we've become a trusted partner for customers around the world. We're here to offer the finest charcoal, not only effective but also environmentally friendly.

**Our Coconut Shell Charcoal: More Than Just Fuel.** Our coconut shell charcoal is more than just an energy source. It's the result of a natural process combined with advanced technology to create an exceptional product:

**Clean & Efficient Fuel:** We produce charcoal with high carbon content, ensuring cleaner and hotter combustion. It's the perfect choice for BBQs, industrial use, and household needs. **Eco-Friendly:** Made from sustainably sourced coconut shells, our charcoal helps reduce organic waste and supports environmentally-friendly agricultural practices. **Versatile:** In addition to industrial and household use, our charcoal is also used in various applications such as air filters, growing media, and even cosmetics. Our versatility meets the diverse needs of the market.

# VISION & MISSION

**Arga Prasetya**

## Vision:

To become a leading producer of coconut shell charcoal that is sustainable, environmentally friendly, and innovative, contributing to the wise use of natural resources to meet global market demands.

## Mission:

1. **Providing Quality Products:** To produce the finest coconut shell charcoal through efficient and environmentally friendly production processes.
2. **Innovation and Technology:** To continually develop technologies that improve the production process and introduce innovations that add value to the products.
3. **Environmental Responsibility:** To prioritize environmentally friendly practices by minimizing negative impacts on nature and maximizing the sustainable use of coconut by-products.
4. **Empowering Local Communities:** To actively contribute to local community development by providing employment opportunities and social programs that support their well-being.
5. **Building Customer Trust:** To foster long-term relationships with customers through excellent service, transparency, and a commitment to quality.

Let me know if you need further adjustments!

# WHY CHOOSE US

## Why Choose Ice Charcoal

**Standardized Production Process:** Using modern machinery and a tightly controlled process, every piece of charcoal we produce undergoes strict quality control to ensure top-notch quality. **Global Suppliers, Local Service:** While we serve international markets, we prioritize close relationships with our clients. Our team is ready to provide responsive service and timely deliveries. **Sustainability is Our Priority:** From every coconut tree we harvest, we're committed to supporting sustainability initiatives, including proper forest management, replanting efforts, and reducing carbon footprints.

## OUR COMMITMENT

We believe quality is the cornerstone of any business. Therefore, every batch of coconut shell charcoal we export undergoes a series of rigorous quality tests. Our production process combines traditional methods with modern technology, ensuring we produce charcoal that is not only superior in quality but also consistent in performance.

Connecting the World with the Best Coconut Shell Charcoal

As a leading exporter, we have built a vast network across various countries. Whether you're in Europe, America, the Middle East, or Asia, our premium charcoal is ready to be delivered right to your doorstep. With meticulous attention to detail, we ensure every shipment arrives on time and meets your specific needs. Join Us in Creating a Greener World

## COCONUT SHELL CHARCOAL BRIQUETTE CATEGORIES

We offer various categories of coconut shell charcoal briquettes designed to meet the needs of industries, households, and agriculture. Our briquette products are known for their superior quality, efficient combustion, and environmentally friendly characteristics.

### Shisa

Made from 100% Premium Indonesian Coconut Shell Charcoal, our briquettes represent the highest quality, globally recognized as some of the best in the world. Each briquette is produced through a meticulous and precise process, ensuring efficient and optimal combustion. With maximum calorific value and an exceptionally low ash content, our briquettes deliver unmatched performance. This makes our product the top choice for shisha enthusiasts and other users who prioritize quality. Furthermore, we use modern, eco-friendly technology, ensuring that our products are not only high-quality but also support sustainability and environmental balance. With our briquettes, you get the perfect combination of flavor, longevity, and efficiency, making them ideal for a longer, more satisfying shisha experience.

| Specification       | Premium Grade | Medium Grade |
|---------------------|---------------|--------------|
| Colories            | 7500 cal      | 7000 cal     |
| Ash Conte           | 2.2% - 2.5%   | 3%           |
| Moistures           | 5%            | 5%           |
| Fixed Carbon        | 78%           | 75%          |
| Volatile Matter     | ±14%          | ±15%         |
| Burning Time        | 2h 30m        | 2h           |

BRIQUETTE**

## BBQ Briquettes

Introducing Our Specially Crafted BBQ Briquettes, designed with culinary enthusiasts and energy-conscious consumers in mind. These briquettes are the perfect blend of the finest coconut shell charcoal sourced from sustainable natural resources, and premium hardwood charcoal. This combination delivers longer burn times, consistent heat, and more efficient combustion, providing an exceptional BBQ cooking experience.

Our BBQ briquettes not only enhance the flavor of your food with a natural, smokeless taste, but are also engineered to maintain stable temperatures, giving you better control over grilling and cooking. Say goodbye to unpredictable flames or quick burnouts. With longer-lasting performance and greater fuel efficiency, our briquettes make every BBQ session more enjoyable, practical, and cost-effective.
